• snow plowing • janitorial services

## **SLM – Facility Solutions Nationwide Takes New Name, Adds Services**

**Green Lane, PA (February 4, 2009) – SLM – Facilities Solutions Nationwide** is the new name for the company formerly known as SLM Waste and Recycling Services, Inc. The name change was spurred by SLM's growth and continuing expansion of services – most recently adding janitorial services to its offerings.

“Since I founded SLM in 1998, we have grown from a regional provider of waste and recycling services to offer a much more complete listing of facilities management services that we deliver on a national scale,” said Susan V. Daywitt, chief executive officer. “Janitorial is our newest service, where savings can equal 15 percent to 40 percent off your current bottom-line costs. Combining all of our services truly cuts your costs, and helps meet the facility management needs of customers in the food, retail, hospitality, construction, housing and medical industries that we serve.”

SLM also moved from Sellersville, PA to a larger headquarters in Green Lane, PA.

### **About SLM – Facility Solutions Nationwide**

SLM provides facilities management services in the areas of waste and recycling, including medical waste; grease trap pumping and jetting, cooking oil grease; kitchen exhaust; and property maintenance, including lawn care, snow plowing, parking lot power washing/sweeping, and janitorial services. Available nationwide, SLM's services reduce client costs an average of 25%. SLM partners with facility managers to assure their properties run smoother to enhance profitability, and, because SLM is available 24/7/365, ultimately helps de-stress clients' lives.
